

WorldWorks Games is proud to bring you this special FREE sneak peak of the coming "DungeonWorks Expansion #1". Based on numerous customer requests this new expansion set will add a long list of props, tiles and corridors to further enhance the original and incredibly successful "DungeonWorks" release. To give you a small taste of what's to come I hope you enjoy this free mini release "The Altar". Don't forget to reference the Beginners Guide included in the www.worldworksgames.com/workshop.html section for handy cardstock modeling tips. Now get Folding!

"The Altar" Completed build

Difficulty Rating: 3 out of 5 (Some curved cuts around the horn sections but otherwise a straightforward build)

Edging Color: Grey or Black (What is "Edging"? Please refer to the "Beginners Guide")

Step 1: Cutout and score as noted. Be sure to remove the horned altar walls in one piece as noted by the black border (do not cut away the white space at this time).

Step 2: On the riser section (page#3) fold the glue tabs inward and glue to the inside of the adjoining walls.

Step 3: Fold over and glue or "sandwich glue" the horned wall sections (so that the image appears on both sides). Use as thin a layer of glue as possible to prevent excess warping. Allow drying at least 2 minutes and then carefully cut away the remaining white space.

Step 4: Glue the podium tab at its base to the inside of the adjoining wall.

Step 5: Apply glue to the upper podium tab and glue to the inside of the podium base.

Step 6: Apply a thin layer of glue to the horned wall section space marked "glue" and affix to one end of the podium. Repeat this with the other wall section on the opposite side.

All done! Now go save some poor lamb from the slaughter!
